Note regarding research associated with Howard Hughes Medical Institute (HHMI) and Ludwig Institute for Cancer Research (LICR): Research of HHMI & LICR at UC San Diego is conducted by researchers appointed as faculty in UC San Diego departments. Such faculty are, financially speaking, on the payroll of HHMI and LICR. However, academically they are fully integrated into the University in the same manner as other University faculty. As a result, while research conducted by HHMI and LICR at UC San Diego does not appear on the University’s books, academically such activity is fully integrated.
