APPENDIX B – EXCEPTIONS

Departments, units, or individuals unable to comply with the UCSD Minimum Network Connection Standards but wishing to connect to the campus electronic communications network must identify resources that will assist them (on an ongoing basis) in becoming compliant. Devices that do not comply with the minimum standards are subject to exclusion from the campus network.

Departments, units, or individuals who believe their devices require configurations that do not comply with the UCSD Minimum Network Connection Standards may request connection to the campus electronic communications network on an exceptional basis. The exception process will involve other mitigation of the risks that the UCSD Minimum Network Connection Standards address. To request exception, fill out the form available at <http://blink.ucsd.edu/technology/security/network/standards/>.

Questions about the UCSD Minimum Network Connection Standards or the exception process may be addressed to: security@ucsd.edu.
